Notes:

1. Information on this table is current as of 4/26/2022. If states change data on ETA 581 reports after 4/26/2022, revised data are not included on this table.

2. Information for some states on this table is unreliable due to circumstances associated with the COVID-19 pandemic. States billed reimbursing employers for benefits paid to former employees and then canceled the charges as federal and state law changes provided temporary financial relief to reimbursing employers if certain conditions were met. It is possible that the computer programming of the activity, which was complex, resulted in the reporting of incorrect data. Therefore, the comparison of data on this table between states, regions and US Total within this year and with other years may not be appropriate.
